

## Surface Mount Housings

- > Using Surface Mount Technology, switches can be mounted in any orientation
- > Designed for tape and reel packaging; compatible with standard pick and place machines
- > Increases structural integrity; reduces stress in solder joints
- > Provides additional protection and electrical isolation
- > Allows for precise placement
- > Extremely compact and lightweight; high strength/temperature engineering plastic
- > Reduces cost and time by eliminating manual placement/soldering

## Fluid and Motion Control Solutions for Mission Critical Applications
